

HOUSE OF KOLOR

PREMIUM CUSTOM FINISHES SINCE 1956

USC01

KOSMIC URETHANE SHOW KLEAR

Simply stated, USC01 Kosmic Urethane Show Klear is the most robust klear House of Kolor has ever produced. Using state of the art polymer technology, we have developed a clear with very good chemical, fuel, and water resistance, as well as the highest UV protection in the industry. USC01 also offers users excellent flow out, gloss and D.O.I. (Distinctness Of Image) after 48 hours. This klear is identified as a medium solids product (41%). It can be used on all size vehicles from large trucks to compact cars, resulting in the show-ready finish that House of Kolor users crave. We have also created the new AX02 Kosmic Kicker accelerator for use on motorcycles and small parts, resulting in higher production in your shop. USC01 Kosmic Acrylic Urethane Show Klear is the ideal clear coat for you and your pursuit of excellence.

USC01 Kosmic Show Klear meets all VOC rules and regulations, Coast to Coast, including California.

Unequaled Performance...
Uncompromised Quality...
Undisputed Market Leader
